RECOGNITIONS

DIREK is the TASMU Environment Track Award Winner

Our recognition and registration in Qatar underscore our dedication to sustainable solutions and reflect our ambition to positively influence Qatar's digital ecosystem

- Winner of TASMU Environment Track Award 2023
- Won over £1 million innovation grants from Innovate UK 2021-2023
- Winner of Toshiba Umbrella 2022
- Surrey Technology Awards 2023 (Highly Recommended)
- Wates Innovation 2021 (Finalist)
- Winner of the Sustainable Innovation Fund 2023 (SBRI)

HILSON MORAN CASE STUDY

The Client

Hilson Moran is an international design and consultancy firm responsible for the 947 Stadium in Doha.

The Project

Radar deployed in <2 wks, gave accurate insight into utilisation; D-XPRT recs compared to HVAC.

Deployment size
1322m²

Design occupancy
100

Peak Utilisation
71% Design Occupancy

Result

Saved £25,974
RoI < 12 months
